Maths Revision Guides and Workbooks

Dear Parents,

As your child begins his final year of GCSE mathematics, regular revision and practice is a necessity. Undertaking past papers, attempting problem solving style questions and refining understanding and skills of topics is a must. With that in mind, I wanted to let you know about an offer which we have been given by the revision guide production group CGP.

CGP specialise in producing exam focussed resources and they have brought out a new range of books which will support the new 9 – 1 GCSE in Maths. Alongside this, they have offered a discount to schools ordering these updated books.

The range includes:

- **New GCSE Maths Edexcel Revision Guide: Higher (with Online Edition)**

This book consists of a revision guide for all the topics including explanations, grade information and worked examples. Each topic is also linked to exam-style questions, and each copy of the book comes with a free online edition that can be accessed via PC, Mac or tablet. **(School's cost: £2.50)**

- **New GCSE Maths Edexcel Exam Practice Workbook: Higher (includes Answers)**

This book contains exam-style questions on every topic and complete step-by-step solutions. The 'Practice' section also includes a full set of sample exam papers, the answers to which can be downloaded from the CGP website. **(School's cost: £2.50)**

- **New GCSE Maths Edexcel Grade 9 Targeted Exam Practice Workbook (includes Answers)**

This book contains exam-style questions, only on the most difficult topics in the new GCSE syllabus. Step-by-step solutions are provided. **(School's cost: £2.50)**

We are able to make an order for any quantity of these books at the school's cost listed above. There is of course no obligation to purchase any of the guides, but I wanted to make them available to you, in case you would be interested, due to the large saving to schools compared with the RRP. If you would like to purchase any (or all!) of the resources listed above for your son, please check the relevant offer and make payment through JOINOS by **Friday 13th October**. Any orders received by this date will be put through to CGP and we hope to be able to supply the books after October Half Term.

If you have any queries, please do not hesitate to contact me. I wish your son all the best as he prepares for his GCSE year.

Best wishes,

Mrs L Mifsud
Head of Mathematics
